

Step 1: Download and Install AutoHotkey [here](#)

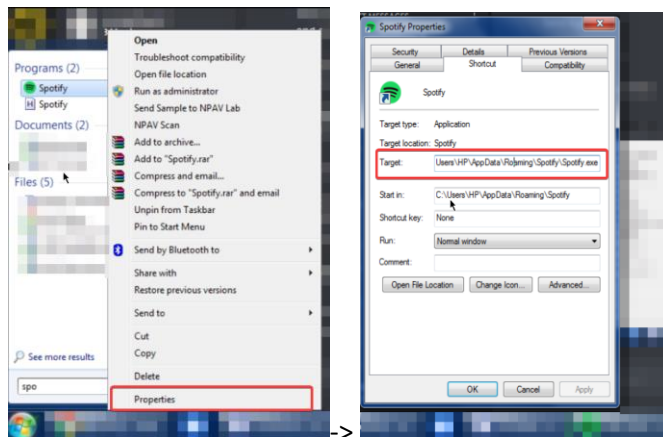

Step 2: Do the following steps on the .ahk file; Right click -> Open with -> Notepad, add path of you Spotify in the position given below.

```
Spotify_Advertisement_skip.ahk - Notepad
File Edit Format View Help
Loop{
Sleep,1000
DetectHiddenWindows, On ;Detect Spotify even if it's minimized
SetTitleMatchMode, 3 ;checking for equal title from the statement below
WinGetTitle, Var, Advertisement ahk_exe Spotify.exe ahk_class Chrome_WidgetWin_0 ;Getting title of spotify
if(Var == "Advertisement")
{
Process, Close, Spotify.exe ;Closing Spotify
Sleep, 100
Run, %Spotify path% ;Running Spot from the defined directory
Sleep, 500
WinActivate, ahk_exe Spotify.exe ;Activating Spotify (like maximizing)
Loop{ ;loop for making sure if song is playing
Sleep, 1000
IfWinActive, ahk_exe Spotify.exe
{
Sleep,500
Send,{Right} ;Skipping song as it loads the same which was playing before the restart
Sleep,200
WinMinimize,A ;Minimizing Active Window
SetTitleMatchMode,2 ;Title matchmode for checking if the title from the below statement exists in Spotify title
WinGetTitle, var, - ahk_exe Spotify.exe ahk_class Chrome_WidgetWin_0 ;Getting title which contains "-" in it
if(var == "Spotify Free") ;checking if spot has autoplayed
{
Sleep,500
WinActivate, ahk_exe Spotify.exe
Sleep, 1000
Send,{Right} ; Looping the same statements as above for playing song
Sleep, 500
}
}
}
}
```

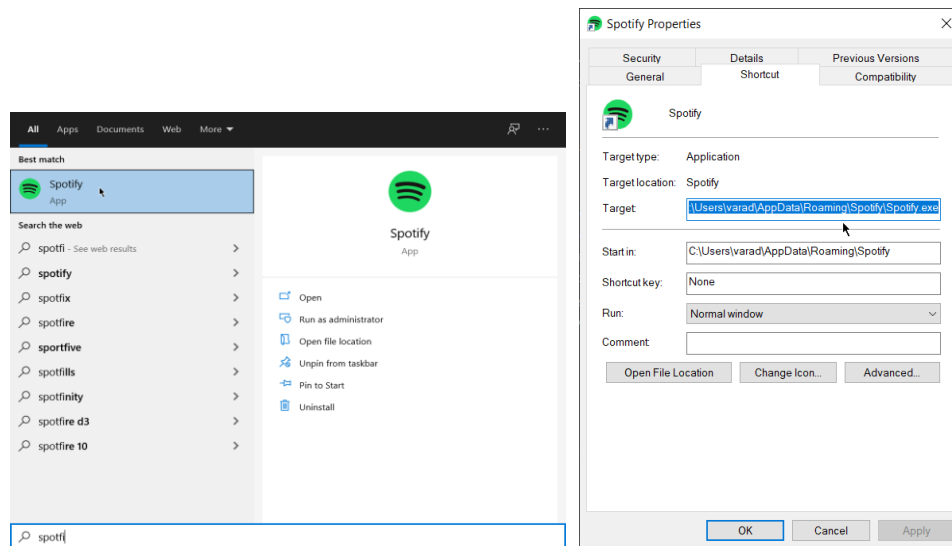

How to find path of Spotify:

- Search Spotify in start
 - For windows 7:

Right click -> Properties and copy the text in the **Target** box

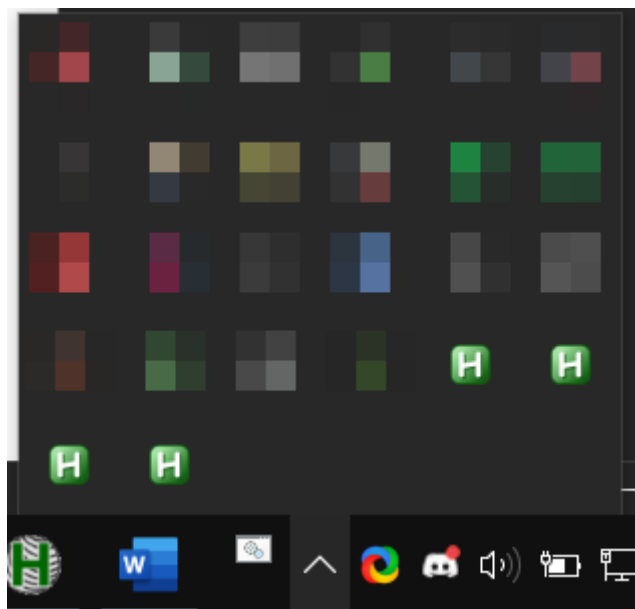

- For windows 10:

- Right Click on spotify and click open file location or click open file location from the side thingy. And copy what is in the **Target** box.

Step 3: After saving, double click the script for running it.

Step 4: The running script would be visible in the Windows Tray

Step 5: If you want this script to run every time your pc start put the file in the startup folder:

1. Win+R for opening Run or right-click on the start logo and click run
2. Type in *shell:startup* in the dialog box which appears
3. Paste the File you just edited

Intended WORKING OF THE SCRIPT: when there is an advertisement Spotify will restart and play the song automatically no manual labor is required.

Step 6: Enjoy using the script and direct message me if you encounter any difficulties
